This is a list of words that your child will be focusing on this year. These are what are known as “sight words”. These words build a foundation for reading as they represent about 75% of the words your child encounters in the early years of learning to read. Being able to quickly recognize these words will help your child build confidence as they read, as well as develop their comprehension skills as they will not have to stop and sound out these unfamiliar words. Your child’s flow and fluency of reading will improve and make reading easier and more enjoyable.
