

Pesticide Notice

A Minnesota state law went into effect in the year 2000 that requires schools to inform parents and guardians if they apply certain pesticides on school property.

Specifically, this law requires schools that apply these pesticides to maintain an estimated schedule of pesticide applications and to make the schedule available to parents and guardians for review or copying at each school office.

State law also requires that you be told that the long-term health effects on children from the application of such pesticides or the class of chemicals to which they belong may not be fully understood.

If you would like to be notified prior to pesticide applications (excluding emergency applications), please contact Dave Sellner, Facility Manager, GFW Public Business Office, 323 E. 11th st. Gibbon, MN 55335. If you have any questions regarding this notice, please contact Dave Sellner at 507-647-5382 Ext. 2283
